Social Media Community Guidelines

The Brewers Association (BA) uses social media to connect beer lovers, share relevant news, resources, and provide updates on the work we are doing to support the industry. Our goal is to inform, engage, and foster healthy discussion by creating a collegial and welcoming environment.

In order to create a welcoming environment, we have set guidelines that apply to any engagement with the Brewers Association or members of the community on our social media platforms. These guidelines provide a better understanding of how to engage with the Brewers Association on social media and what you can expect from us. We reserve the right to delete any comments and report or block users that act outside of our values and guidelines outlined below. The Brewers Association, or employees of the BA, will not engage in inappropriate or hateful discussions.

We appreciate your comments and questions and to keep our communities and conversations focused, we ask that you please adhere to the following guidelines:
